

## WRPS Significant Aspects

1. Air Pollutants
2. Asbestos Emissions
3. Chemical Handling, Storage, Purchase and Use
4. Contaminated Sites Disturbance
5. Cultural/Historical Resource Disturbance
6. Discharges to Waste Water Systems or Groundwater  
(Includes Work Within Areas Subject to Water Accumulations)
7. Electricity Usage
8. Fossil Fuels Consumption
9. Greenhouse Gas
10. Hazardous/Mixed Waste Generation and Management
11. Hazardous Material or Hazardous/Mixed Waste Packaging and Transportation
12. Interaction with Wildlife/Habitat (includes Fire Management)
13. Non-regulated Waste Generation and Management
14. Polychlorinated biphenyl (PCB) Contamination
15. Radioactive Material Use and Storage
16. Radioactive Waste Generation and Management
17. Use, Reuse, Recycling, and Conservation of Resources
