Lindholm named President and Project Manager for Washington River Protection Solutions

Richland, WA – Mark Lindholm has been named President and Project Manager for Washington River Protection Solutions (WRPS), after serving as acting president of the company since Oct. 1, 2015. Lindholm replaced Dave Olson, who retired from WRPS on Sept. 30, 2015.

Lindholm will lead the remediation of radioactive and hazardous waste tanks at the U.S. Department of Energy's Hanford Site. He had been serving as WRPS Chief Operating Officer since January 2015 and has more than 30 years of experience in government nuclear facilities operations, including management positions at Hanford's Waste Treatment Plant, the Idaho Cleanup Project, and the Savannah River Site. He previously held a senior role at WRPS as the manager of Single-Shell Tank Retrieval and Closure from 2008 to 2010.

WRPS

WRPS, owned by AECOM and EnergySolutions, with integrated subcontractor AREVA, is a prime contractor to the U.S. Department of Energy's Office of River Protection and is responsible for managing and reducing the risk posed by the waste stored in Hanford's underground tanks.
