

Environmental Policy

Revision 3

Washington River Protection Solutions LLC (WRPS) is committed to protecting the environment during the completion of our contract mission by implementing and maintaining an Environmental Management System (EMS) that ensures Tank Operations and related activities are conducted in a safe, compliant, and resource-effective manner. This policy is fully endorsed by WRPS Senior Management. In support of this policy, we will:

- Incorporate continual improvement to maintain and enhance environmental performance
- Integrate pollution prevention, resource conservation and other sustainable practices into planning, procurement, and execution of work
- Comply with applicable legal and contractual environmental protection requirements
- Protect workers, the public, and the environment
- Promote long-term stewardship of the Site's natural, historical, and cultural resources
- Flow down environmental requirements to employees and providers of services and materials, as applicable
- Utilize measurable and documented environmental objectives and planning actions to achieve them, reviewed at least annually, for activities with significant environmental aspects
- Advocate open communication among employees, customers, regulators, stakeholders, and the public regarding environmental responsibilities, progress toward company objectives, and proposed future actions
